

Report of VC sessions

Grade-3

Modern learning for the modern student

*As the use of technology grows day by day, new modes of teaching and learning have entered the world of education. The trend taking the spotlight currently is e-learning. Without a doubt, online learning benefits children and teachers alike. **E-learning has dramatically changed the teaching and learning process.** Various zoom sessions were being conducted by the teachers of Grade-3 to resolve queries of the students in previous week.*

Glimpses of the sessions:
