

Dear Parents

Greetings!

In an effort to stay safe from corona virus, Delhi Public School is transitioning to online learning for its students. We intend to give you a sneak peek of how it will work from a teacher and student perspective. Teachers will make online learning videos that students can re-watch or share some ready resources supplemented by worksheets/assignments/self-assessment activities for students to keep track of their learning pertinent to topic. Students will require access to computer/smartphone with internet connectivity.

The school buildings will be closed but teachers will work from home to teach students digitally. Active family engagement would certainly result effective homeschooling and can open a window of opportunities for children to grow and evolve.

Some school staff will also be available telephonically to assist parents with questions.

Let us join hands to ensure that our children continue their educational journey at home too.
