

**DID YOU
KNOW?**

BAMBOO CAN GROW AS FAST AS 3 FEET PER DAY!

The needle in Alexander Graham Bell's first phonograph was made of it and Thomas Edison used it as a filament for his glass  bulb.

Yes we are talking about Bamboos.

Can you imagine Bamboos are used to 

1. Make roads
2. For Medicinal purposes
3. Build houses and schools
4. Make clothes
5. Make durable utensils
6. Make accessories
7. To feed animals
8. For scaffolding
9. Make furniture
10. Musical instruments

Isn't it amazing !
